The Content of the Workshop: "Peace Begins from the Classroom"

One important issue that young people should address during their education is why wars happen and what we can do for peace. Surprisingly, these topics rarely appear in the school curriculum. This workshop will demonstrate a variety of English lessons designed for a university Peace Studies course that engage students in thinking about violence, analyzing the causes of war and discussing ways to peace. Come along to experience innovative peace education activities and share your ideas about how classroom teachers can inspire students to work for peace.
